

# Индивидуальный проект этап 1

Размещение на Github pages заготовки для персонального сайта.

---

Шуплецов А. А.

25 февраля 2023

Российский университет дружбы народов, Москва, Россия

## Информация

---

- Шуплецов Александр Андреевич
- студент ФФМиЕН
- Российский университет дружбы народов
- <https://github.com/winnralex>

- Установить необходимое программное обеспечение.
- Скачать шаблон темы сайта.
- Разместить его на хостинге git.
- Установить параметр для URLs сайта.
- Разместить заготовку сайта на Github pages.

Установим нужную версию HUGO.

Рис. 1: установка HUGO

## Сделаем репозиторий по шаблону.

The screenshot shows the GitHub interface for creating a new repository. At the top, there's a navigation bar with the GitHub logo, a search bar, and links for Pull requests, Issues, Codespaces, Marketplace, and Explore. The main heading is "Create a new repository from starter-hugo-academic". Below this, a subtext states: "The new repository will start with the same files and folders as [wowchemy/starter-hugo-academic](#)." The form has two main sections: "Owner" and "Repository name". The "Owner" dropdown is set to "winnralex". The "Repository name" input field contains "blog" and has a green checkmark icon to its right. Below the name field, a message says: "Great repository names are b is available, memorable. Need inspiration? How about [laughing-doodle?](#)". There is a "Description (optional)" text area below. At the bottom, the "Public" radio button is selected, with a subtext: "Anyone on the internet can see this repository. You choose who can commit."

Create a new repository from starter-hugo-academic

The new repository will start with the same files and folders as [wowchemy/starter-hugo-academic](#).

Owner \* Repository name \*

winnralex / blog ✓

Great repository names are b is available, memorable. Need inspiration? How about [laughing-doodle?](#)

Description (optional)

☒ Public  
Anyone on the internet can see this repository. You choose who can commit.
